

his part, you:

read a text with six gaps

choose answers from A, B or C for each gap

Pippali

## AMMAR: PRESENT SIMPLE

Cross out the wrong word in each sentence.

Example: Camels live / ~~lives~~ in the desert.

- 1 Sea water is / ~~are~~ full of salt.
- 2 Elephants don't / ~~doesn't~~ eat meat.
- 3 That man come / ~~comes~~ from London.
- 4 It isn't / ~~aren't~~ very far to my school.
- 5 Cities has / ~~have~~ better transport than villages.
- 6 Grass grow / ~~grows~~ faster in summer.
- 7 My country don't / ~~doesn't~~ have many lakes.

## VOCABULARY: FOCUS ON MEANING

Choose the best word for each space.

Example: I haven't been to the new ..... centre.

A shopping      B shop      C buying

- 1 Lily has her ..... bicycle.  
A even      B one      ☒ C own
- 2 The park is ..... for the winter.  
☒ A closed      B finished      C ended
- 3 Dinosaurs ..... all over the world.  
A spent      ☒ B lived      C took
- 4 The driver told everyone to get ..... the bus when we arrived.  
☒ A off      B up      C down
- 5 The ..... was quite difficult.  
A instructions      B mark      ☒ C test

TIP

The words you have to choose from will be quite similar, e.g. size, area or space. They will also all be nouns, adverbs, prepositions, verbs, etc. Read the sentence carefully with each word in the gap before you choose one.

Read the text. Cross out the wrong words in each sentence.

- 1 The text is fact / ~~a story~~.
- 2 It comes from ~~an advertisement~~ / a book.
- 3 It is in the present simple / ~~past simple tense~~.

TIP

Read the whole text. Try to understand what it is about and why it was written.

Bees are flying insects. There are around 20,000 different types of bees in the world. Most bees live in large groups, but some live alone. They use flowers to make honey, which is also their food. There are many worker bees, but only one queen bee in every large group. All the other bees have to look after her. Most bees live between 40 days and 5 months, but queen bees live for about 3 years.
