are you?
isn't he?
can't I?
doesn't she?
is it?
aren't you?

4 Read the story and write the missing words.

~~saw~~ ~~was~~ drive go ~~went~~ fly were
flying driving invented flew living

Hello. My name's Tony. Last week I (1) saw a really great film when I (2) went to the cinema. It was about a kind man who lived in an unusual house with his two children. They (3) was were very poor but the man (4) was an engineer and he (5) invented lots of exciting things for them. One day he bought a really old car, which used to be a racing car. The engine didn't work and there were no tyres on the wheels. He worked hard to repair it and make it special. When it was ready he decided to (6) drive the car to a beach for a picnic. He took his children with him and they were (7) driving up a road though the hills when the car suddenly (8) fly into the air. It had large wings and it could (9) flying! The children couldn't believe it! They were (10) flew like birds, high up in the sky! After a few hours they arrived at a strange castle. A very unkind man was (11) living in the castle and he tried to take their car. If you want to know what happened next, you'll have to (12) go and see the film.
