Modern Entertainment

It is often argued that the younger generation is obsessed with digital devices and has lost the ability to enjoy their leisure time without being in front of a screen. While screens are dominant, I disagree that screens are the only source of entertainment for young society.

Screen entertainment is popular because it's more accessible and highly engaging. Whether it's gaming, streaming movies or social media, these platforms provide a way to connect with people globally. For many, it is the most convenient way to unwind after a busy day of studies.

However, traditional hobbies like reading are far from dead. There are nearly thousands of young people who enjoy immersing in either a fictional world or ones who enjoy the experience of reading a good book, which offers a deep level of imagination which a 2-minute video cannot offer.

Furthermore, outdoor activities and sports also remain as a vital part of the life of young people. Many young people value physical health and social interaction in the real world.

Have you ever had a moment where a simple stroke of luck changed your entire perspective? For me, it happened on a normal day around three years ago. I was scrolling through some reels in Instagram, wasting my time when I came across a reel about a man named David Goggins. He was a man who had changed his life from being good nobody to a man who has inspired generations of man kind. His story really motivated me and made me realize the truth about my own life that if I continue in the same way I will never reach my goals.

So, I started fixing my life, starting from simple habits like reading 15 pages of a book to building habits that will be unbreakable even when sick. I used to eat junk foods all the time and had a screen time of more than 10 hours only from social media. I wasn't focused on my studies or on my life but that one edit changed my mindset, perspective and ultimately my whole life around.
