

FLYERS LESSON PLAN (20.04.2026)

- Commences the lesson with a revision activity that includes listening and speaking tasks.
- Introduces the new unit, Our Camping Adventure, by showing a short video related to camping. Engages students in a discussion about what camping is, whether they have been camping before, and the things that can be seen during a camping trip.
- Guides the students to complete pages 76 and 77, which include matching and a speaking activity related to camping.
- Introduces new vocabulary consisting of 10 words. Guides the students to form the words by unscrambling letters, gives them the opportunity to guess the words based on meanings provided, and finally asks them to complete a fill-in-the-blanks activity.
- Recalls the past tense by listing verbs and asking students to identify their past tense forms. Then guides the students to engage in a related activity.
